Corfu in Greece

Corfu island

History

- Corfu has been inhabited since the Stone Age
- Corfu in Greek is called 'Kerkyra'.
- The Greek name of Kerkyra came from a mythological Nymph called Corcyra.
- But Corfu probably comes from **Corypho** or **Corfoi** (medieval names)

because of the two characteristic rock-**peaks** of the Old Fortress of Corfu.

□ In his *Odyssey*, Homer mentions the island of Scheria, the island of the **Phaeacians**, which some believe to be Corfu.

- The first true historical records however don't start until 743 BC, when the Corinthians formed a colony founding the rich ancient city of **Corcyra**

- The Temple of Artemis is a doric temple found in Corfu
